We like to assure you once again that we have taken a detailed inventory of all the feedback received during our **OPEN Day**; and previously. We would take the best possible decisions that will be of mutual benefit to us.

Also, do remember that our door is always open to you. You need not wait till **Open Days**.

#### THE NATIONAL ELECTIONS AND SAFETY TIPS:

The Nigerian national elections are here. We like to appeal that you ensure your safety; and that of our geniuses before, during and after the election.

Vote candidates of your choice; and try to be discreet about it. We still operate a closed-ballot system; stay away from baseless arguments that cause strife; and most importantly pray for the nation. Nobody's political ambition is worth our lives.

God bless Nigeria!

## MY EXPERIENCE AT THE EXCURSION

*An article written by Ukoha Nicole Grade 4A*  
I went for an excursion on Wednesday 8th February, 2023.

I went with other Elementary School pupils. We went to the National Museum, Lagos. It was a long journey to the place.

First, we went to the section, tagged “The Government of Yesterday and Today”. We had a tour guide who took us around. In this section, the tour guide showed us the pictures and history of Nigerian leaders from 1914 (Sir Lord Lugard) till date (President Muhammed Buhari). We saw the car in which President Murtala Muhammed was assassinated.

We also learnt about the two types of coups; the bloody and bloodless coups that happened in the past.

We were taken to another section tagged, “**Human Life Style in a Cycle**”

We saw different things that were used in the olden days. The tour guide showed us a wooden tray where women used to give birth because they weren’t any hospital then.

We were also shown a stool that husbands made when their wives give birth to more than 12 children.

Furthermore, we moved to a subsection of war materials and saw a gun that works with gun powder instead of bullet. We also saw masquerades. We were taken to “death, burial and funeral” section. We were shown the materials usually put on dead bodies.

Finally, we went to the playground to take some pictures.

The excursion was memorable. I thank EPHRAIM SCHOOL for this experience.
